

PROTEOSTASIS

Protein Homeostasis: the core of cellular equilibrium

...but when the balance is broken:

BM1307

Participant Countries: 27, > 200 groups

Chair: Dr Rosa Barrio (CIC bioGUNE, ES)

Vice-Chair: Dr Olivier Coux (CRBM-CNRS, FR)

Duration of the Action: 25th April 2014 – 24th April 2018

Objectives

- 1. INTEGRATION:**
To defragment the field and increase communication
- 2. TRANSLATIONAL:**
To facilitate the transfer from basic to translational science
- 3. TECHNOLOGY:**
To foster technology and knowledge in protein homeostasis
- 4. TRAINING:**
To create and consolidate training efforts in the field

2015-2016 Activities

WORKSHOPS: 3

- EMBO Conference on Ubiquitin and UBLs, Croatia, 18 Sept 2015
- Yeast Apoptosis, Portugal, 29 Sept-03 Oct 2015
- Proteasome & Autophagy Workshop, France 06-08 April 2016

TRAINING SCHOOLS: 2

- Ubiquitin & SUMO in yeast, France, 07-11 September 2015
- Ubiquitin & UBLs, Germany, 05-09 Oct 2015

Short Term Scientific Missions:

- 10 STSMs will be funded

DISSEMINATION ACTIVITIES: Follow us!
