

# PROTEOSTASIS

EUROPEAN NETWORK TO INTEGRATE RESEARCH ON INTRACELLULAR PROTEOLYSIS PATHWAYS IN HEALTH AND DISEASE

## Protein Homeostasis: the core of cellular equilibrium

## ...but when the balance is broken:

Cancer  
Inflammation

Neurodegeneration  
Other Diseases

Participant Countries: 30 > 260 groups

**BM1307**

Chair: Dr Rosa Barrio (CIC bioGUNE, ES)

Vice-Chair: Dr Olivier Coux (CRBM-CNRS, FR)

Duration of the Action: 25<sup>th</sup> April 2014 – 24<sup>th</sup> April 2018

## Objectives

- 1. INTEGRATION:**  
To defragment the field and increase communication
- 2. TRANSLATIONAL:**  
To facilitate the transfer from basic to translational science
- 3. TECHNOLOGY:**  
To foster technology and knowledge in protein homeostasis
- 4. TRAINING:**  
To create and consolidate training efforts in the field

## 2017-2018 Activities

### WORKSHOPS: 5

- Proteostasis via the N-Terminus, 11th-13th September 2017, Halle (Germany).
- EMBO Conference Ub & SUMO, 15-19th September 2017, Dubrovnik (Croatia).
- The Proteasome hub, February 2018, Kloster Seeon (Germany).
- Meeting on Vesicular Biology, 16th- 17th February 2018, Coimbra (Portugal).
- PROTEOSTASIS Final Meeting, 22nd – 24th February 2018, Athens (Greece).

### TRAINING SCHOOLS: 2

- Training School: In vivo analysis of ubiquitylation and sumoylation, 4th-8th September 2017, Paris (France).
- 2nd IFOM Symposium - Advanced Lecture Course Ubiquitin-assisted autophagy from mechanisms to pathology, 11th- 13th October 2017, Milan (Italy).

Short Term Scientific Missions: 5-8 STSMs will be funded.
